# MINERAL EXPLORATION

at Millen Mountain, Nova Scotia

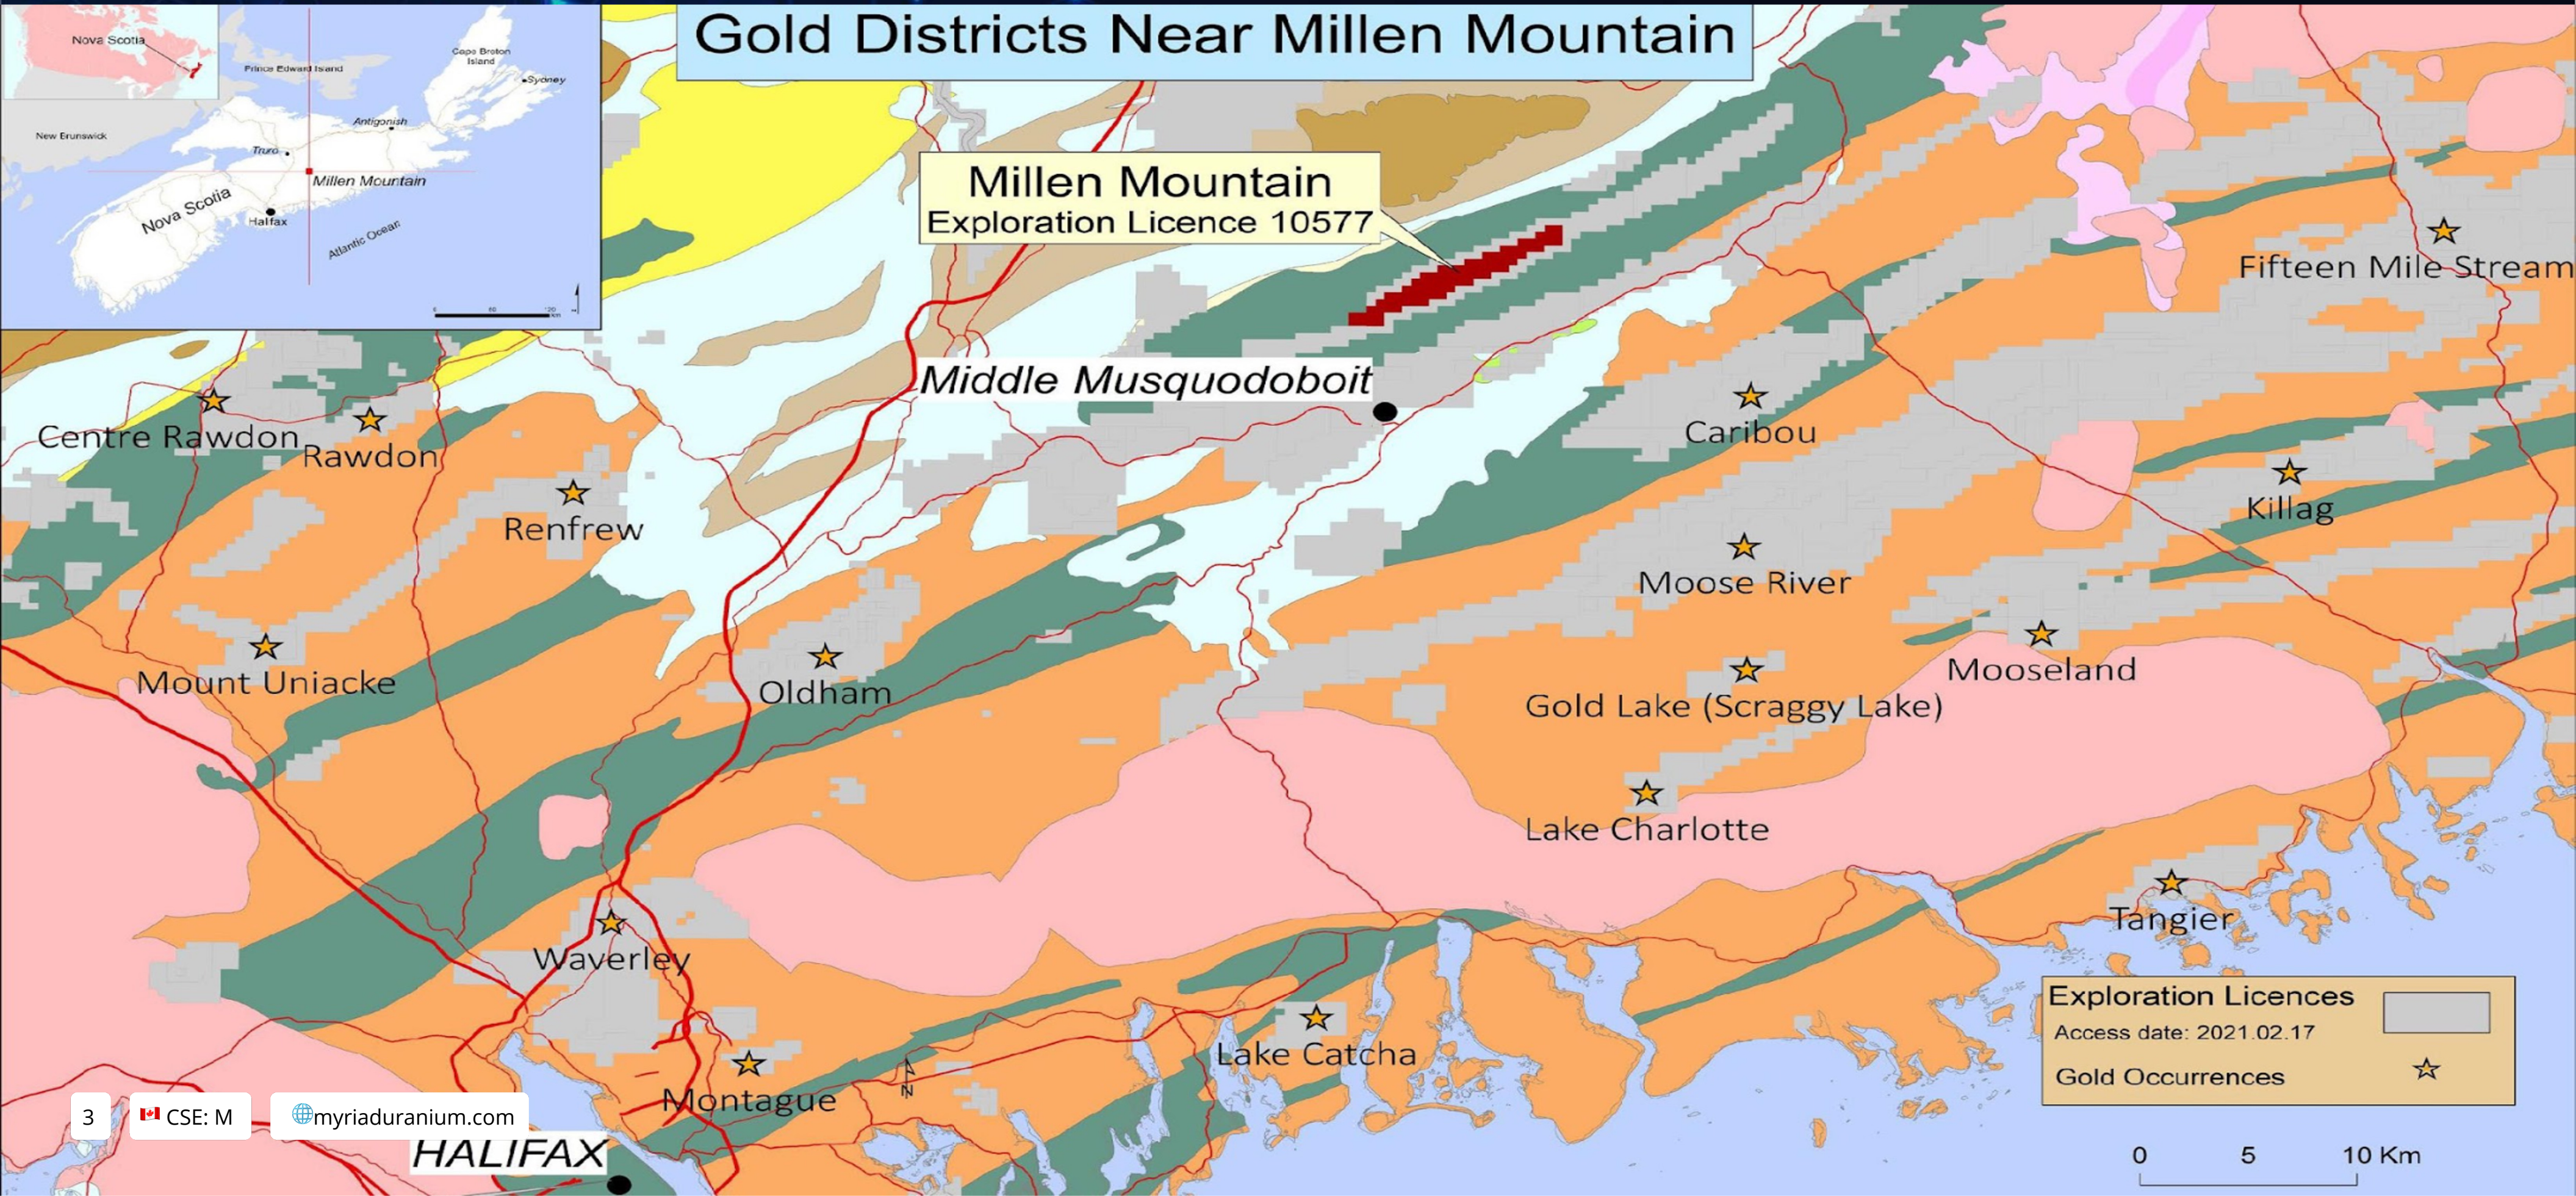

# HIGHLIGHTS

-  80 claims, 1280 hectares, in central Nova Scotia, Canada, near Halifax.
-  Highly accessible, power, highway, local workforce all readily available.
-  Owned through 50/50 joint venture with Probe Gold Inc.
-  Lies within rock units of the Meguma Group with historical gold production throughout Nova Scotia of over 1.2 million oz.
-  Situated among past producing gold mines and one current producer.
-  Evidence of historical “vein chasing” excavation throughout property.
-  Grab sampling in 2018 returned anomalous gold values to 23.75 g/t.
-  Geophysics and limited drilling (1551m, 6 drill holes) finds anomalous gold values and quartz veins typical of Meguma Gold deposits.

# LOCATION AND PROXIMITY TO OTHER PROJECTS

# JOINT VENTURE WITH PROBE

Probe Gold Inc. (TSXV: "PRB") earned a **50% interest** in Millen Mountain through exploration expenditures.

Myriad and Probe entered a **50/50 joint venture** agreement in 2019.

Both sides obligated **to contribute pro rata** to future exploration budgets, or can (eventually) be diluted to an NSR.

Probe Gold is a **highly successful company** with several high-profile gold projects throughout Canada.

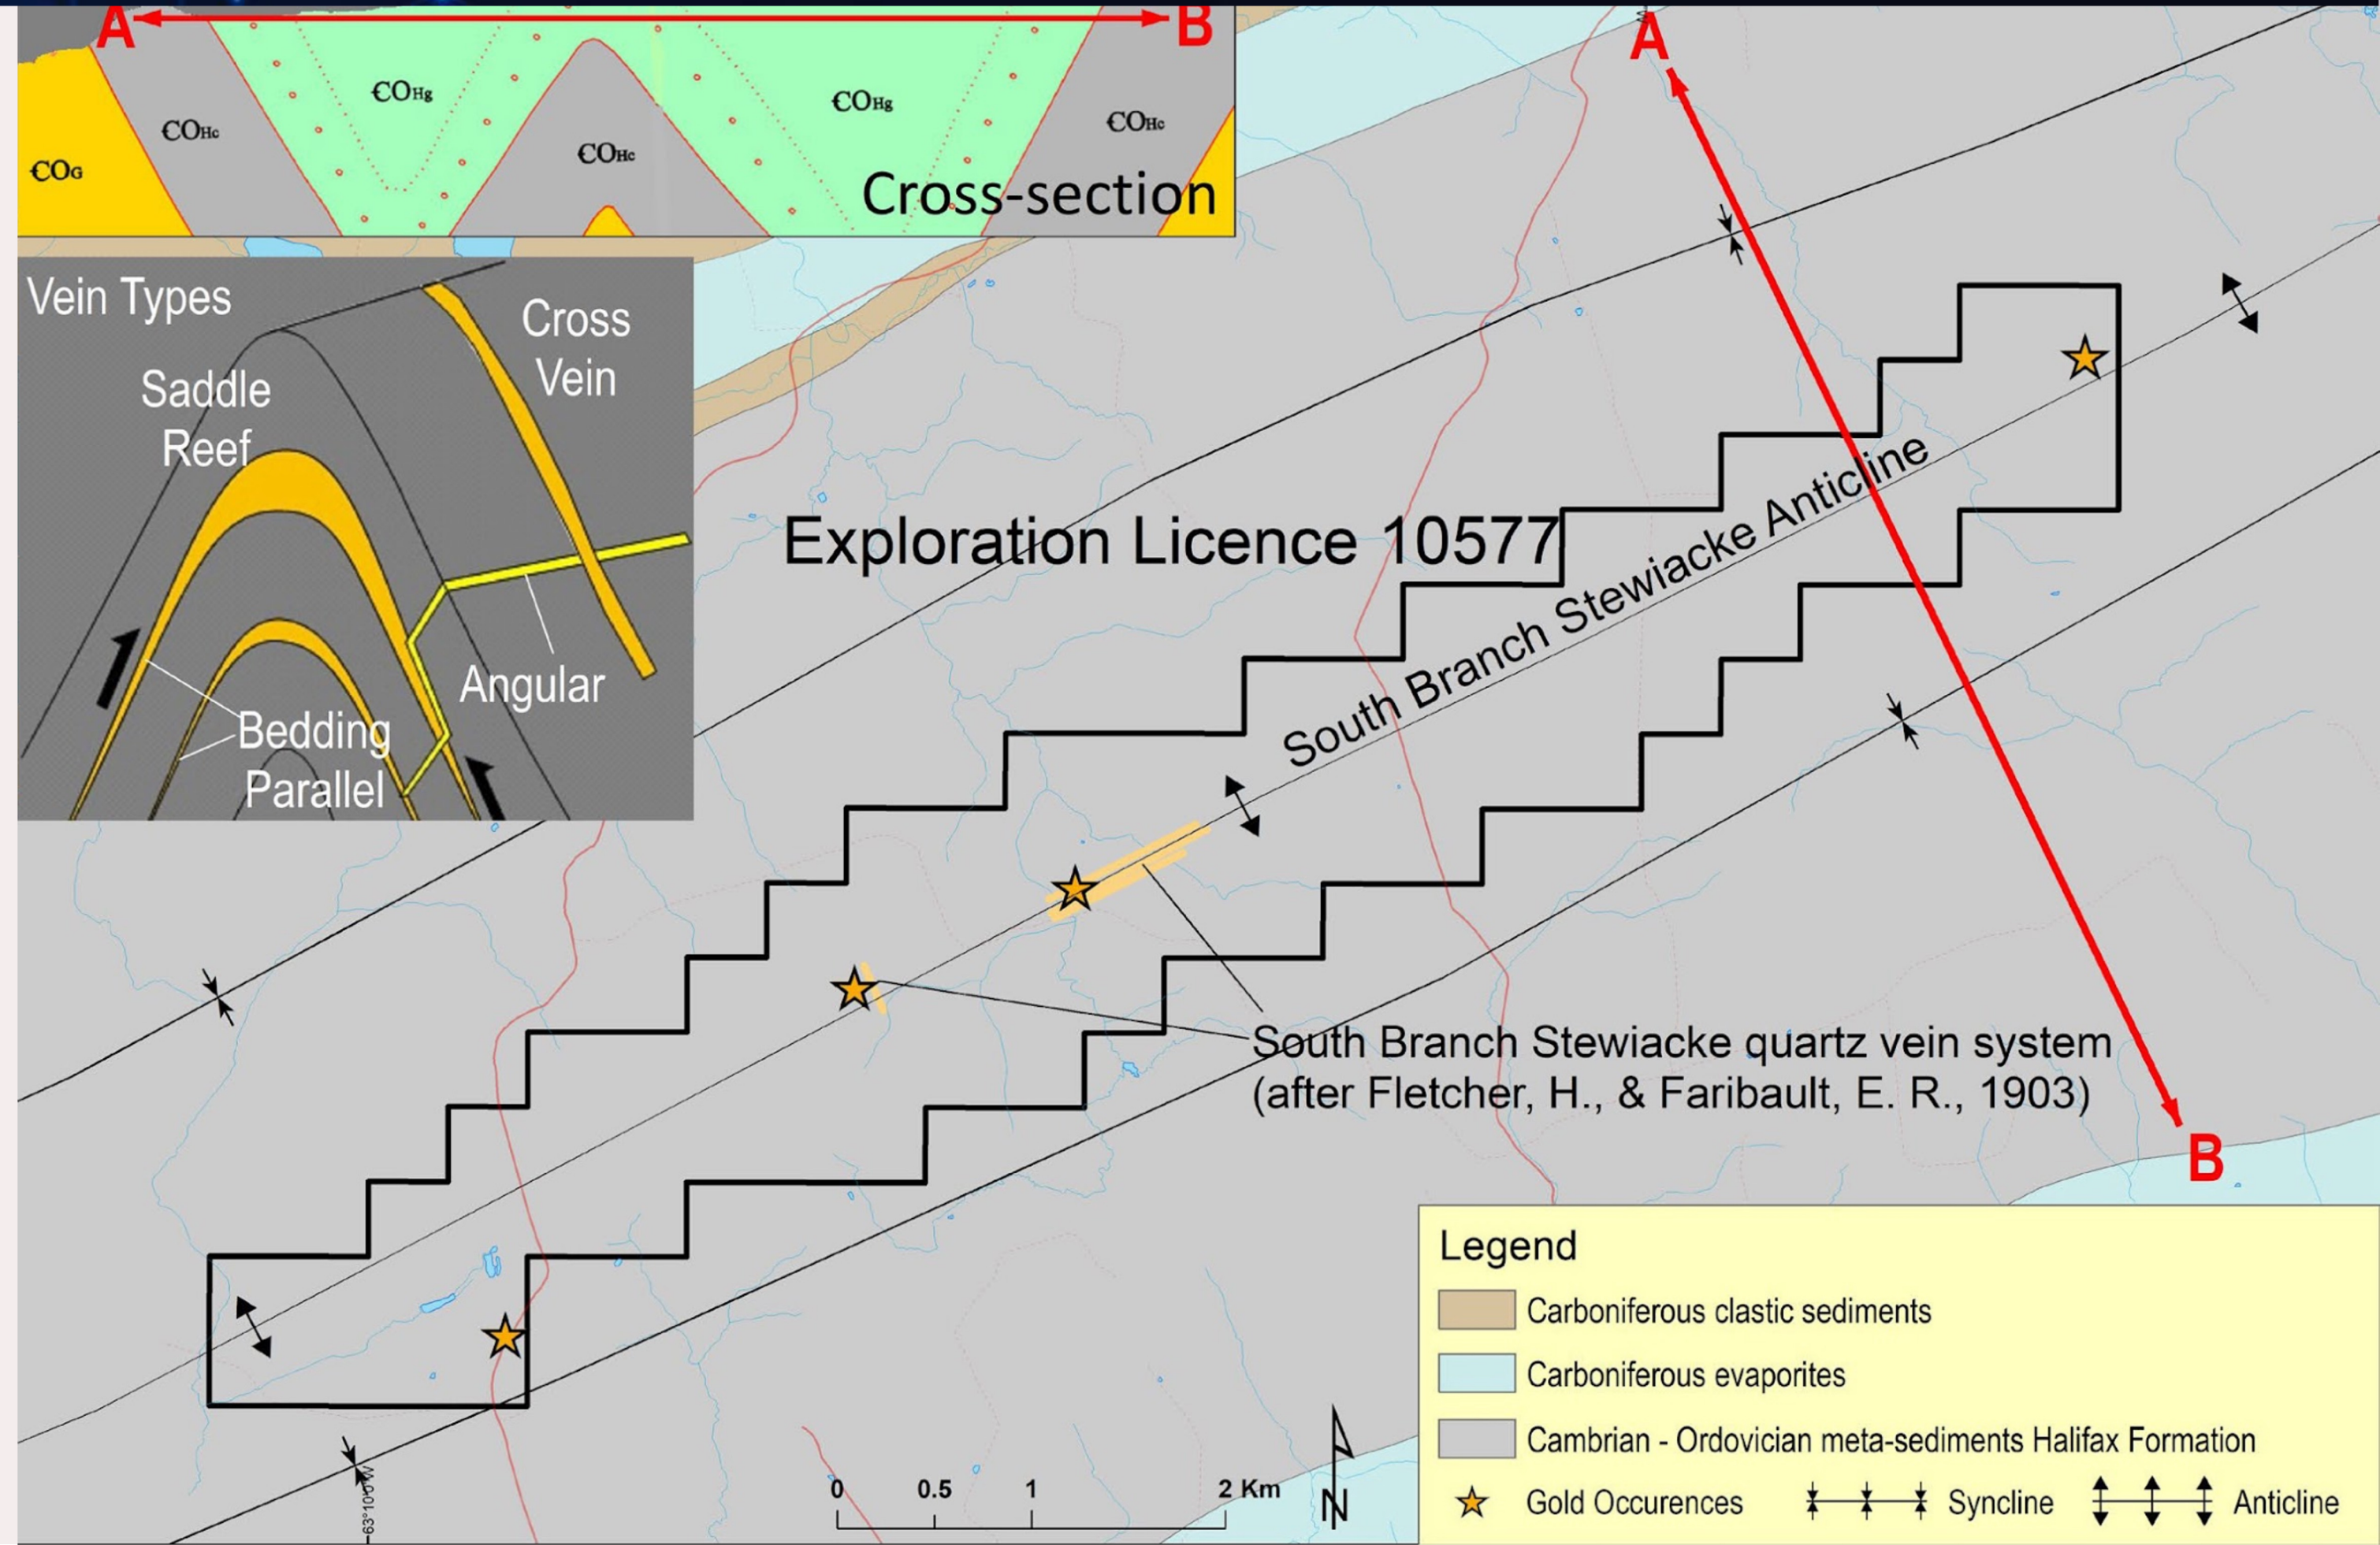

# PROBE

---

# GEOLOGY AND DEPOSIT STYLE

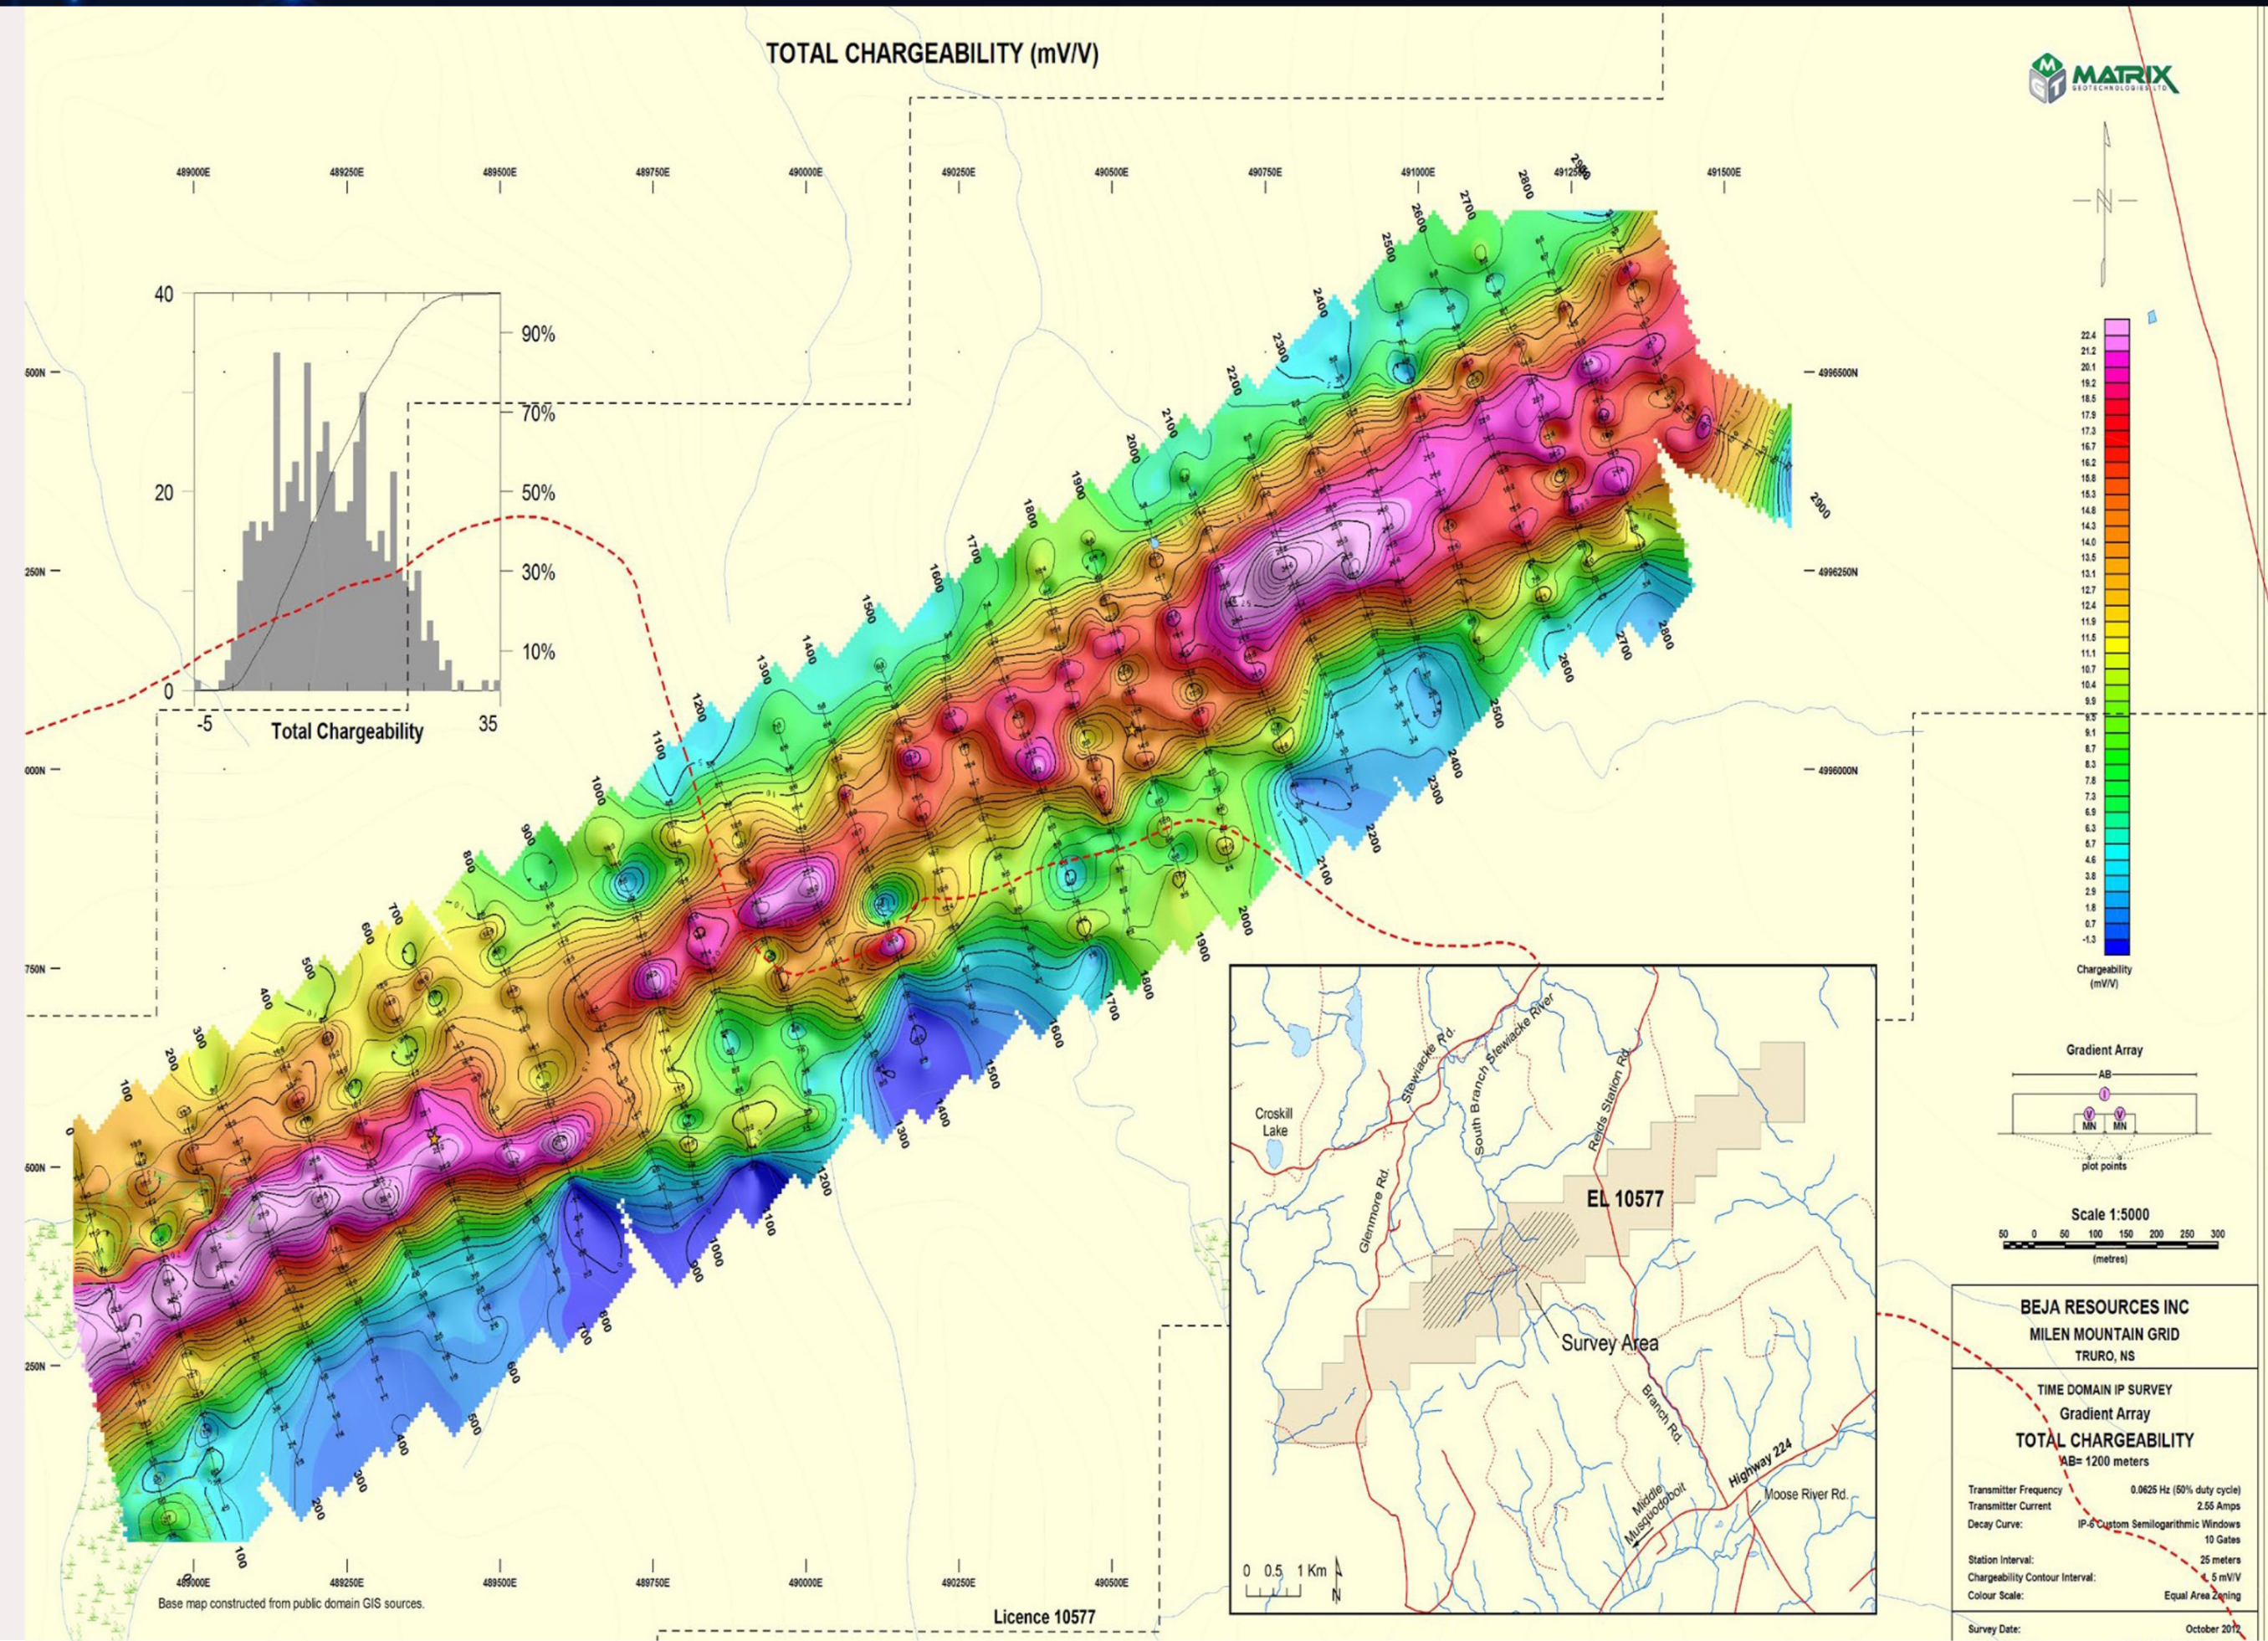

The Millen Mountain property has a number of attributes that are common in Meguma-style gold deposits including tightly folded meta-sediments, alteration minerals and abundant quartz veining.

# GEOPHYSICS

Chargeability, Resistivity, and Ground Magnetic surveys conducted on property by Matrix in 2012 identifying 7 high priority and 13 secondary targets.

# DRILLING

Six holes, totaling 1551 meters, and targeting chargeable and resistive anomalies.

Anomalous values returned, showing the continued potential for a mineralized system at Millen Mountain.

Legend:

Light Blue: 0.05 – 0.999 g/t Au Blue: 0.1 – 0.5 g/t Au

Green: 0.5 – 1.0 g/t Au Yellow: >1.0 g/t Au

All assays intercepts are reported in drill core length and do not reflect true width.

# DRILL CORE

Specks of gold  
visible  
in the core.

Numerous vein  
styles observed  
in core.

# GOLD POTENTIAL SUMMARY

Many similar characteristics to Meguma Gold Deposits.

Very limited drilling to date intercepted anomalous gold.

One grab sample returned high grade of 23.75 g/t.

Geophysical work provides great data for future drill targeting.

Plethora of nearby gold projects and producers.

For full background / history and more technical detail, see 43-101 report completed 2019.

# LEGAL DISCLAIMERS

## Securities Laws

The Documents relate to a potential offering (the “Offering”) of securities (the “Offered Securities”) only to those persons where and to whom they may be lawfully offered for sale, and only by the persons permitted to sell these Offered Securities. These Documents are not, and under no circumstances are to be construed as, a prospectus or an advertisement or a public offering of the Offered Securities in any province or territory of Canada or elsewhere and do not constitute an offer for the sale of the Offered Securities. The Offered Securities have not been nor will they be qualified for sale to the public under applicable securities laws. No securities regulatory authority in Canada, the United States of America or any other jurisdiction has reviewed or in any way passed upon the Documents or the merits of the Offered Securities and any representation to the contrary is an offence. The Offered Securities will not be listed on any stock exchange and there is no primary or secondary market for such Offered Securities, nor is it anticipated that such market will develop. Accordingly, the Offered Securities will be subject to restrictions on resale.

## Information Provided in the Documents

We make no representation or warranty as to the accuracy or completeness of any information included in the Documents. The information is considered current but will not be updated at any time thereafter, including as of the time of any closing of the Offering. Certain statements in the Documents are “forward looking statements”. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections (financial or otherwise), objectives, assumptions or future events or performance are not statements of historical fact and may be forward-looking statements. Forward-looking statements are based on expectations, estimates and projections at the time the statements are made that involve a number of risks and uncertainties which would cause actual results or events to differ materially from those presently anticipated. These forward-looking statements reflect our current beliefs with respect to future events and are based on information currently available to us. Forward-looking statements involve significant known and unknown risks, uncertainties and assumptions, and many factors could cause actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. You should not place undue reliance on the forward-looking statements. These forward-looking statements are made as of the date of this document and we do not intend to, and we do not assume any obligation to, update or revise these forward-looking statements to reflect new information, events, results or circumstances or otherwise after the date on which such statement is made as to reflect the occurrence of unanticipated events, except as required by law.
