

COPPER MOUNTAIN URANIUM PROJECT

Potentially one of the largest uranium projects in Wyoming

- Myriad holds a 75% earnable interest (with 100% optionality) in the **Copper Mountain Uranium Project**, a district scale uranium asset in Wyoming, USA.
- **Over 9,400 acres** containing numerous historic uranium mines, deposits, and prospects.
- Historical data has revealed **US\$78m (2024\$)** in historical work at Copper Mountain, including **2,000 boreholes**, **feasibility studies**, and a **6-pit mine plan**.
- Estimated potential of known deposits and speculated targets at over **65 Mlbs**, with historical resources of between **15 and 30 Mlbs**.
- **Ore highly leachable**, with recoveries in the **low to mid-90s%**.
- Exciting exploration upside. An assessment concluded the endowment could exceed **600 Mlbs U3O8** in the greater Copper Mountain district.
- Wyoming is **USA's top uranium jurisdiction**. State and Federal governments strongly pro-uranium.
